

Active Ingredient
2-phenethyl propionate
Abamectin (containerized bait station only)
Acetic acid
Alkylphenoxy polyethoxy ethanol & IPA
Allyl isothiocyanate from essential oil of mustard & related capsaicinoids (from oleoresin of capsicum)
Ammoniated salts of fatty acids
Ammoniated soap of fatty acids
Ammonium nonanoate
Ammonium salts of fatty acids
Ammonium soap of higher fatty acids
Avermectin (containerized bait station only)
Avermectin B1 (containerized bait station only)
Azadirachtin
Bacillus subtilis
Bacillus thuringiensis israelensis
Bacillus thuringiensis kurstaki
Balsam fir oil
Barley extract
Benzyldiethyl (2.6 xylyl Carbamoyl methyl) ammonium saccharide
Black pepper
Black pepper oil
Blood meal
Borate
Borax
Boric acid
Bt (Bacillus thuringiensis)
Calcium
Calcium carbonate
Canola oil
Capsaicin
Capsaicinoids
Castor oil
Cedar oil
Chile powder
Cinnamon
Cinnamon oil
Citric acid
Citronella oil
Clarified hydrophobic extract of neem oil
Clove oil
Cloves
Coconut oil soap

Coconut oil
Copper diammonia diacetate complex [Bis (acetate -O) Diammine Copper]
Copper octanoate
Copper tape
Coriander
Corn gluten meal
Cottonseed oil
Crosslinked polyacrylamide
Cydia pomonella granulovirus
DE
Diatomaceous Earth
dihydro-5-heptyl-2 (3H) – furanone
dihydro-5-pentyl-2 (3H) – furanone
Disodium octaborate tetrahydrate
d-limonene
Dried blood
Egg white solids
Egg solids
Elemental sulfur
Eugenol
Fish oil
Fuller’s earth
Garlic
Garlic extract
Garlic juice
Garlic oil
Garlic powder
Geraniol
Geranium oil
German cockroach pheromone
Glycerol
Gum resin
Heptyl-butyrate
Hydramethylnon (Containerized bait and gel form only)
Hydrogen peroxide
Indole
Iron HEDTA (Fe HEDTA)
Iron oxide
Iron phosphate
Isopropol
Laurel sulfate
Lauric acid
Lecithin
Lemon eucalyptus oil
Lemon grass
Lemon grass oil
Linseed oil
Malic acid
Methoprene

Mineral oil
Mint
Mint oil
Molasses
Mono and di-potassium salts of phosphorous acid
Natural gum extract
Neem extract
Neem oil
Nitrobacter nitrifying bacteria
Non pathenogenic nitrosomas
Non toxic lure (pheromone)
Oleic acid
Orthoboric acid
Paraffinic oil
Peppermint
Peppermint oil
Petroleum oil
Petroleum oil – superior paraffinic type
Phermone(s)
Picaridin
Pinene
Piperine
Polybutene
Potassium bicarbonate
Potassium carbonate
Potassium salts of fatty acids
Potassium salts of fatty acid derived from neem
Potassium soap of fatty acids
Potassium sorbate
Putrescent egg solids
Putrescent whole egg solids
Pyrethrins
Roisin – Rubber
Rosemary
Rosemary oil
Salt
Saponin derived from Yucca schidigera
Saponins of Quillaja saponaria
Sesame oil
Silicon dioxide
Sodium acetate
Sodium benzoate
Sodium chloride
Sodium laurel sulfate
Sodium tetraborate
Sodium tetraborate decahydrate (borax)
Sorbitol
Soybean oil
Spinosad - mixture of Spinosyn A & Spinosyn D
Stearic acid

Streptomyces lydicus
Sucrose
Sulfur
Thyme oil
Trimethylamine
Thymol
Unsulphonated petroleum oils
Vanilla
Vegetable protein lure
Vegetable wax
Vinegar
White pepper
Whole eggs
Whole pepper
Wintergreen
Wintergreen oil
Yeast
Yellow grease
